

From Discovery to Clinical Use and Commercialization

Linking Industry & Entrepreneurs with the Physicians & Scientists of ASAIO

**Member Summaries of Expertise Are Now Available to
Bronze, Silver, Gold & Platinum Sponsors
of an Unrestricted Educational Grant**

One of the most valuable services ASAIO can provide to Industry is access to the Physicians and Scientists of the Membership who can assist with commercial research and development.

ASAIO has designed and implemented a program through the website at www.asaio.com to enable this collaboration.

- ♦ *ASAIO Members complete the one page Summary of Expertise of your information online by clicking the **"Industry and Scientists"** button at www.asaio.com or by using this link http://asaio.com/index.php?src=forms&id=Experts_Artificial_Organs_invite*
- ♦ *Industry partners who provide unrestricted educational grants to ASAIO are eligible to receive the link to access the information, which is password protected. Please click the **"Sponsorship Opportunities"** button then select **"Corporate Sponsorship"** from the drop down*
- ♦ *Assistance from Members can range from answering a question to service on a scientific advisory committee, or even product co-development. Industry decides what assistance they need and then selects the most suitable Member of ASAIO from the summaries of expertise!*

We look forward to many successful ventures together!
